Detailed Action

This is the Office Action corresponding to amendment filed Nov 18, 2003.

Response to Amendment

The amendment filed Nov 18, 2003 has not been entered. Since this is a reissue application, the specification must be in a single column format, copied from the parent of the reissue. Because the parent already has brackets and italics to show the changes with respect to the original parent from which it issued, the changes made in the instant application must be shown by double underlining and double bracketing.

The specification needs to refer to all parent cases. The continuity information on the first line of the specification as originally filed must state that this application and application number 09/283,843 are both reissue applications of original US Patent No. 5,615,855, filed Dec 9, 1994. Also, application number 07/772,167 must also be added since application number 08/072,817 is a CIP of it.

Declaration

The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The instant application must identify at least one error being relied upon the basis for this reissue. The error stated in the declaration was fixed in the parent reissue application.

Claims Rejection

Claims 1-17 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.
